## TRACKING AND FIXED SOLAR MOUNTING SYSTEMS

The side with the long gab will be placed on top of the next mass carrier.

Lock this side in the roof carrier so that the mass carrier can't be moved.

# Van der Valk Solar Systems

## TRACKING AND FIXED SOLAR MOUNTING SYSTEMS

Repeat this till the second to last panel.  
At the last panel the mass carrier is placed like the first one. (with the long gab facing inwards.)

## Van der Valk Solar Systems

Van der Valk Solar Systems is a specialist company that is fully focused on developing and producing mounting systems for use with solar panels. To this end we work in close collaboration with Van der Valk Systemen, our sister company.

Van der Valk Systemen has been a well-known name in the field of moving systems and stationary components for the greenhouse horticultural sector and industry throughout the world since 1963. Van der Valk Systemen's high quality products have been individually developed from a scientific approach and produced with mathematical precision. They are made to be low-maintenance and to stand out thanks to their durability, reliability, functionality and ease of assembly.

Both Van der Valk Systemen and Van der Valk Solar Systems only introduce innovative products to the market. Our shared business complex consists of 20,000 m<sup>2</sup> of offices and production facilities, in which modern machinery and the latest technologies facilitate development, manufacturing and testing that is fast, flexible and precise.

### Developer and producer of solar mounting systems for:

Open Fields   Pitched Roofs   Flat Roofs   Greenhouses   Water Features
